SUMMARY

Electrical Engineering undergraduate and Full Stack Developer with hands-on experience in modern web development and industrial engineering environments. Skilled in React.js, Next.js, Angular, Node.js, JavaScript, HTML, CSS, REST APIs, DOM manipulation, Git/GitHub, and Vercel, with experience developing and deploying responsive, production-ready web applications. Experienced through internships at Unified Mentor, iEnamigos Foundation, AEGCL, and TRTC, with a strong focus on problem-solving, continuous learning, and building practical digital solutions.

EXPERIENCE

AI Web Development Intern · In Amigos foundation — Aug 2026 – Aug 2026
Work From Home

- Working on full-stack web development using React.js, Next.js, Node.js, Angular, JavaScript, HTML, and CSS to build responsive and interactive web applications.
- Improved UI/UX, resolved frontend issues, and supported code maintenance.
- Explored AI tools to improve development workflows and automate repetitive tasks.

Industrial / Summer Intern · Assam Electricity Grid Corporation Limited (AEGCL) — Jul 2026 – Jul 2026
Mariani , Assam

- Gained practical exposure to power transmission and substation operations.
- Studied transformers, circuit breakers, switchgear, and electrical protection systems.
- Observed equipment maintenance, safety procedures, and real-world grid operations.

PLC / summer Intern · TRTC — Jul 2025 – Jul 2025
Amingaon, Guwahati

- Received hands-on training in PLC systems and ladder-logic programming.
- Worked with sensors, automated control processes, and sequential motor operations.

Full Stack Web Developer Intern · Unified Mentor — Sep 2026 – Present
Work From Home

- Working on full-stack web development using React.js, Next.js, Node.js, Angular, JavaScript, HTML, and CSS to build responsive and interactive web applications.
- Developing and integrating REST APIs, handling asynchronous operations, DOM manipulation, client-side functionality, and backend application logic while following modular and maintainable coding practices.
- Using Git/GitHub for version control and collaboration, along with Vercel for deployment, while contributing to debugging, testing, performance improvements, and ongoing feature development.

EDUCATION

Secondary (X) — Jan 2018 – Mar 2020
Island Academy · GPA 86.2%

Higher Secondary in Science — Aug 2020 – Mar 2022
NKEM · GPA 73%

B Tech in Electrical Engineering — Sep 2023 – Present
Jorhat Engineering College

SKILLS

Technical: HTML, CSS, Javascript, Next JS, React js, Angular js, Node js, API, DOM, GIT, VERCEL, TypeScript, Database, REST APIs, J Query, PLC Programing, Grid, Power System, Ui Design

Soft: Management Advisor : Glug JEC

Languages: English, Hindi, Assamese

PROJECTS

Portfolio — https://tobitoaportfolio.vercel.app

Designed and developed a responsive personal portfolio showcasing my skills, experience, and work through an interactive and modern UI. Built with HTML, CSS, and JavaScript, incorporating animations, interactive elements, and deployed on Vercel.

Homies-wear — https://homies-wear-rouge.vercel.app

Developed and launched a responsive full-stack clothing exchange platform with dynamic UI, API integration, DOM interactions, and application logic. Utilized modern web technologies along with Git/GitHub for version control and Vercel for production deployment.
